1 Team Management & Administration

As a manager at TechNova, you are entrusted with leading teams, managing resources, and driving performance. Managers have access to all FTE policies, plus the following administrative authorities.

1.1 Hiring Workflow & Interview Process

Managers are responsible for raising Requisition Requests (RRs) via the HRMS. Once approved, managers must conduct technical and cultural fit rounds.

- **Interview Rubric:** All interviews must be scored on a 1-5 scale using the TechNova Standard Rubric.
- **SLA:** Manager feedback must be submitted within 24 hours of the interview.

1.2 Budget Approvals & Discretionary Funds

L1/L2 Managers hold a discretionary team budget of **\$10,000 per quarter** for team-building activities, urgent software licenses, or minor hardware upgrades. Any expense above \$5,000 requires VP approval.

2 Performance & Progression

2.1 Performance Review Guidelines & Calibration

During Q4 appraisals, managers must draft performance ratings for their direct reports. TechNova strictly follows a **Bell Curve Calibration**:

- Top Performers (Rating 5): Max 15% of the team.
- Solid Contributors (Rating 3-4): 75% of the team.
- Needs Improvement (Rating 1-2): 10% of the team.

2.2 Disciplinary Actions & PIP

If an employee receives a "Needs Improvement" rating for two consecutive quarters, the manager must initiate a **Performance Improvement Plan (PIP)**. The PIP duration is strictly 45 days. If KPIs are not met by day 45, the manager must escalate to HR for offboarding.

3 Escalation Matrix & Conflict Resolution

Level	Issue Type	Escalation Point
Level 1	Peer conflicts, minor attendance issues	Reporting Manager
Level 2	PIP disputes, severe project delays	Department Head (VP)
Level 3	Harassment, fraud, gross negligence	HR Business Partner
