1 About TechNova

TechNova Solutions Pvt. Ltd. is a premier global provider of enterprise cloud infrastructure and artificial intelligence solutions. Founded in 2012, we have grown from a small startup to an industry leader supporting Fortune 500 clients across the globe.

1.1 Mission Statement

TechNova’s mission is to **empower global enterprises through scalable, secure, and intelligent cloud solutions**. We believe that technology should be a frictionless enabler of human ingenuity.

1.2 Vision

To be the world’s most trusted partner in digital transformation, paving the way for a smarter, more connected global economy.

2 Core Products & Services

TechNova offers a variety of enterprise-grade solutions tailored for modern businesses:

- **NovaCloud Core:** Our flagship scalable IaaS (Infrastructure as a Service) platform.
- **Nova AI-Ops:** Machine learning-driven IT operations and automated remediation.
- **CyberShield Enterprise:** Zero-trust security architecture and enterprise data protection.

3 Global Operations & Headquarters

TechNova operates across three major regions. Our global headquarters is located at:

Global Headquarters

TechNova Tower

100 Innovation Boulevard, Silicon District
San Jose, CA 95113, USA
Phone: +1 (800) 555-NOVA
Email: contact@technova.example.com

4 Careers at TechNova

We are always looking for passionate innovators to join our team. TechNova offers a dynamic, inclusive, and globally connected work environment.

Prospective candidates can explore open roles in Engineering, Sales, Marketing, and Operations by visiting our public careers portal at careers.technova.example.com.

Note: Detailed employee benefits, internal policies, and compensation details are provided to candidates upon extending a formal offer of employment.

5 Recent Press & Milestones

5.1 2025 Sustainability Award

In November 2025, TechNova was awarded the "Green Tech Innovator of the Year" for achieving 100% carbon-neutral data center operations globally.

5.2 Expansion into APAC

As of Q3 2025, we successfully launched our newest regional hub in Singapore, drastically reducing latency for our enterprise customers in the Asia-Pacific region.
